

# We've Been to School on PreSchool

**2-5**

The focus for this age group is on social interaction; activities that make for great group fun, with just the right level of physical challenge. Activity panels, slides, climbers and swings all meet or exceed ASTM and IPEMA safety guidelines for this age group.

The 2 to 5 age group requires guard rails and barriers at much lower deck heights than the older age group. Deck heights for horizontal ladder launches can only be 18" high. The height of the horizontal ladder itself can not exceed 60" from the surfacing.
