DYNAMIC PLAY

Playland proudly introduces Dynamic Play, our newest playground line designed with fun and fitness in mind. This unique series of units constructed of galvanized steel posts and tubing, customizable with your choice of powder coat color, page 143. The net webs and climbers are backed by the strongest rope warranty in the industry and promise to deliver countless hours of play.

Choose from seven units ranging to fit any budget and space, starting at just \$9,860.

The units on pages 37-40 are sold as shown and cannot be modified, however posts can be powder coated in the color of your choice. See page 143.

Unit Number	R03

19' Dymaxion	MSC09787	55' x 55'	688 lbs.	\$22,206

ACTIVE

Fitness Focused Play

5-12

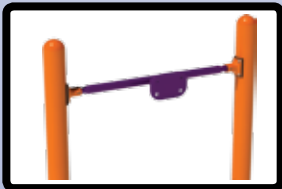

Playland offers the best value in the industry with our Active Play Series, a ground based concept that features motion events and overhead climbing and traversing. These structures offer incredible play value including all the fun, without the two most costly elements of traditional playstructures: roofs and decks.

Mix and match any combination of our Wiggle Walk, Wheel Swinger, Syclone Spinner, Rail Glide, Chain Link Climbing Wall and Arched or Curved Horizontal Ladders.

Create a playground consisting of active elements only, or now with our new Active Transition post, attach Active Play to any 3.5" or 5" traditional unit. See page 44.

In addition, with our single step lily pad, children can have easier access to these fitness-focused play events.
